Summary

Modular Enclosure for Pi 5

[Hobby & Makers](#) > [Electronics](#)

Tags: [supportless](#) [raspberrypi](#) [raspberrypihousing](#) [pi5](#) [rpi5](#)

U will need:

- Case - M2.5x10 self tapping screws X13
- Pi - M2.5x6-8 self tapping screws X4
- Mounting Case - M5x10 BHCS or SHCS X2-4
- 4010 Fan - M3x12 BHCS X4 + M3 Heatset inserts X4

Here is a [Accu Components](#) link for all fixing listed above.

No supports are needed for this design.

Red faces can be removed for wire/ribbon access (see 3MF)
