A wooden washbasin, printed in several pieces so that they can be painted or damaged separately. Also a great piece if you want to add water effects. I designed this to help populate a farming community for one of my D&D games - and printed it on an FDM printer. These pieces would likely also come out great (possibly even better) on an SLA printer, so if you try it, I'd love to see the result!

This is designed for 28mm scale, and can fit in a variety of different places making it a very re-usable piece of scatter.

As always, I'd love to see how you all print these and use them in your games. Please add makes/pictures so others can get some ideas for how to use it!

Update 1 (February 12, 2021)

- Fixed STL scale

Print Settings

Printer Brand: Prusa

Printer: i3 MK2S

Rafts: No

Supports: No

Resolution: 0.4mm

Infill: 15%

Filament: Overture PLA Space Grey

Notes: Printed on the Prusa Mini, on a flat coated spring-steel bed.

Layer Height: 0.1mm

Nozzle Temp: 205

Bed Temp: 60
