Cubone Pokemon Skull

For all Pokemon Lovers

How To Print

Since I have a small printer I printed the model in a **mini version**, if you would like to use this model as a **helmet** there shouldn't be a problem and just **make it bigger** in slicer according to your needs. The model is printed **with supports** which came off quite easily, but for a perfect finish you would want to run **sand paper** over the bottom of the model. Here is a sample of how it looks after the supports are removed:

This should be mostly a small print problem, the larger model shouldn't have such a problem.

Questions And Suggestions

If you have any questions or suggestions, please don't hesitate to reach out, and I'll do my best to assist you.

Happy Printing

And if you'd like to support me, feel free to share, like, and comment!

♥ Thank you ♥
