Description

Adjustable GPU Support Bracket

This universal GPU support bracket is designed to provide stable support for heavy graphics cards, such as the RTX 4090, and prevent them from sagging or damaging the PCIe slot. The support mechanism uses a rotating screw that can be easily adjusted with the ergonomic orange nut. Once the desired height is reached, the position can be securely fixed using the side locking screw.

Size: 10 - 15 cm

Scaling is possible: You can customize the model as you wish, shrinking and enlarging is possible. Shrinking the model to 55 percent gives you a basic size of approx. 6cm+ and enlarging it to 155 percent 15cm+
