A set of roads for a generic SciFi setting, at 6mm scale.

This set is designed to match the length of the 5-Segment Overpass Road as the on-ramp, to take it to the height of the pillar support..

This set is intended to be compatible with the other 6mm SciFi terrain sets I have released. Search my other things for more.

Please feel free to leave a tip if you like the model and think it is merited - an occasional coffee helps fuel the creativity and effort and sustains morale :)

Alternatively, if you want to contribute a little, but still get something for your money, please see my unique designs on Cults 3D. For a small cost (half a coffee), I have a few unique 6mm building creations:
