Christmas Tree 4-in-1

We present our latest Christmas decoration – **Christmas Tree 4-in-1**! This model includes four different variants that you can print in various modes to create a unique atmosphere in your home.

Tree Variants

1. Solid

- This variant is perfect for a classic Christmas tree look. You can print it standardly or in "spiral vase" mode.

2. Single Spiral

- This tree is cut through with a single spiral, giving it a modern appearance. Print it at 300% size and in "spiral vase" mode and ensure 0 bottom layers to achieve a beautiful effect illuminated by an IKEA LED candle.

3. Double Spiral

- The same tree, but with a double spiral cut, giving the model an attractive and intriguing shape.

4. Passthrough

- No matter what colors you choose, you'll achieve a visually striking result that's perfect for Christmas. This tree can, for example, appear to have a snowy top.

Print Settings:

- Recommended layer height: 0.2 mm
- Infill: 15%
- Supports: Not necessary
- For "spiral vase" mode, set the relevant parameters in your slicer

This model is a fantastic addition to your collection of unique decorations and brings a new, interesting element to your home. If you like this model and found it useful, please give it a like and follow me for more amazing 3D models. Your support motivates me to create more creative pieces!
