Summary

Remix of the best modular organizer designs. Many, many sizes and options to play with. Added some angle components.

[drawer](#) [containers](#) [organizers](#) [modularbox](#)

Here's a remix of one of my favourite modular box organizers. I was having so much fun stacking them in random shapes. I found I wanted bigger sizes, so I created them. And now I'm sharing them.

Print settings:

Layer height: .26

2 wall, 2 top & bottom

7-10% infill

they don't need to be all that strong

Print bases with honey comb side down.

No supports needed for nearly all part except the tool tray.

Thanks to SMiF for the original designs. His stuff is awesome! check him out [Here](#)
