modern minimalist headphone stand assembly

important · make sure that:

1. your filament is dry so that it deals appropriately with the tolerances
2. your build plate is properly clean so that there aren't adhesions issues and lifts during the print · if you usually experience issues with bed adhesion on your prints, enable a 5mm brim on the slicer
3. the 3mf file includes a test plate file if you'd like to confirm that your filament of choice is able to handle the tolerances

stand dimensions in mm ~ x:56 · **y:**50 · **z:**225

photos show printed in matte and wood pla

- .40mm nozzle
- .16 layer height
- 15% gyroid infill on the stand and nut and 30% gyroid infill on the base
