Do not feed him bread

This is a little duck I made. He is very excited to join **you** in your adventures.

Print settings (important)

Use an infill ratio of 50% or more because there may be gaps if you do not support the outside walls enough. If you are having trouble sticking it to the bed just slice it and ajust the z-axis for more surface area on the print bed.

Who are you?

Just a dutch student with a fun hobby that sometimes makes a video about his designs.

Please share pictures of the prints

Have fun :)
