Not to be Sold

I'm sharing my files so that you can make them for yourselves or give them away as gifts. I hope you enjoy them. I do not authorize sale of my work by anyone.

Simple Christmas Ornament. I printed a simple letter and hung it from the middle using fishing line. There is a hole on the top for your fishing line to hang a letter from the middle if you want. If not, you will never know it is there.

I printed with 2mm brim and full supports. I also printed with a .25 nozzle @ 0.15mm for the best detail. It also made the supports very easy to remove.

Printed with PLA GOLD SILK (JAYO)
