Summary

Headphone holder with a screw for tightening to a desk.

[Household](#) > [Office](#)

Tags: [holder](#) [headphone](#) [desk](#) [headset](#) [clamp](#)

A headphone holder with a screw for tightening it to the desk.

There is a version with and without a hook. The main purpose was a place to store a separate microphone and help with cables.

Hooked version needs supports on buildplate. Holder has some threads which may need supports, but printed fine without on MK4S.

What parts you need to print?

For mounting:

- Screw (ScrewV2.stl)
- ScrewTop (ScrewTop.stl)

Mounting surface is 5.5mm - 35mm :

- Normal holder (HeadphoneHolder.stl or HeadphoneHolderWithHook.stl)

Mounting surface is 30.5mm - 60mm:

- Large holder (HolderLarge.stl or HolderLargeWithHook.stl)

Print in pictures is the normal version printed with 0.15mm layer height using PETG.

Changelog:

5.3.2025: Added large versions to support thicker desks. Made screw design slightly longer to support thinner desks too.

Model files

Normal variants (5.5mm - 35mm)

2 files

headphoneholder.stl

☐ Works with 5.5mm - 35mm

headphoneholderwithhook.stl

☐ Works with 5.5mm - 35mm, Hooked variant needs supports

Large variants (30.5mm - 60mm)

2 files

holderlarge.stl

☐ Works with 30.5mm - 60mm

holderlargewithhook.stl

☐ Works with 30.5mm - 60mm, Hooked variant needs supports

OLD

1 file

screwmechanismv1.stl

☐ Mounting surface minimum thickness is 5mm more compared to V2.

screwv2.stl

☐ Used for all versions

screwtop.stl

☐ Used for all versions
