V poslednej dobe ma fascinujú klby, ktoré sú potlačené s Tlač na mieste. I have had this model in my head for a long time, finally after several tests I managed to realize it.

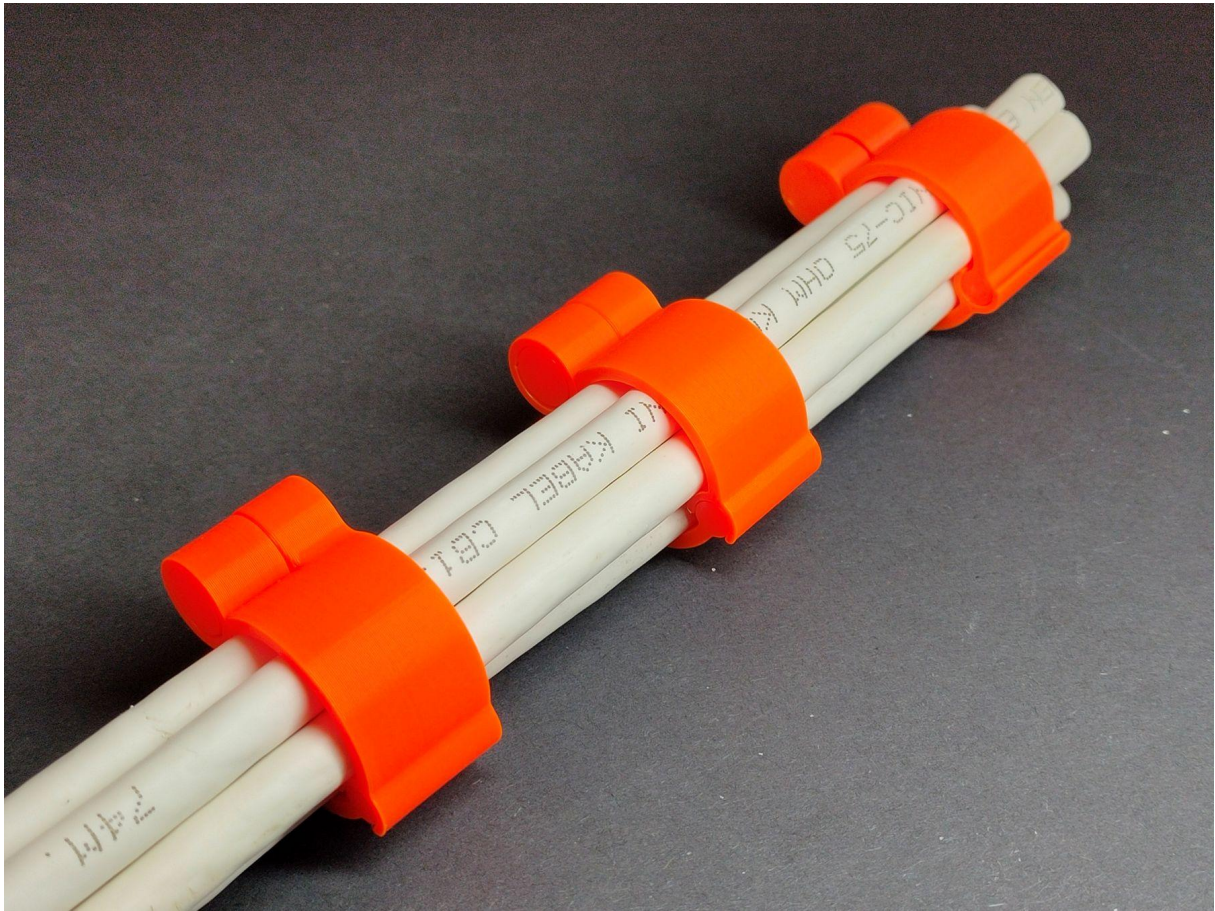

It is a round Clip with movable arms and diameters of **20, 25, 30, 35, 40mm**

The joint tolerance is 0.2mm, with the correct setting of the extrusion width there should be no problem with mobility. The Click holds quite firmly.

I included the model in this competition because every DJ needs a lot of cables when using audio equipment, and a good organizer always comes in handy

Nové veľkosti pridané! 12 mm, 15 mm, 45 mm, 50 mm, 60 mm, 70 mm, 80 mm
20.3.2025-Nahrané Upravené a vylepšené modely klipov - silnejšie trenie klipov, silnejší oblúk pri vyšších fotoaparátoch
