Puppy Dog Decor Figurine

Easy to print! Feel free to scale it as desired.

Printed with **Fuzzy Skin** effect.

Fuzzy Skin: Contour

Fuzzy Skin Point Distance: 0.4

Fuzzy Skin thickness: 0.2

All my photos are **real** and show an actual 3D-printed figure photographed by me.

Read.me

The key to printing my figurines is having **good adhesion** to the build plate. I use **CryoGrip Pro Frostbite** for printing, which provides excellent grip, ensuring that every figurine prints successfully every time. I mainly

use filaments from **Bambu** and have no issues with them either. If you have a different setup, make sure to focus on build plate adhesion, use high-quality dry filament, and everything should be fine.

With more and more questions popping up about the commercial use of my models, I've set up a special page on **Patreon** to make it easier for you to do just that! <https://patreon.com/29flo>

Happy printing!
