Yet another Wooden Barrel, this one has rope!

This is an overlay tile replacement for the board game Gloomhaven.

Tile Count: 3

One version has a flat bottom for easier printing.

It is 25.4mm tall so this is might be more like a [tun](#) at this scale. Ha, it is actually almost twice the volume of a tun at 28mm scale. So to get a barrel it looks like you would need to reduce the scale by 2.5-2 times (40%-50%), but that might be way to small to print. Either way, feel free to scale smaller if you are not quite as thirsty.
