There is also a option of Boosting the model On Makerworld, it gives me points as a revand :D

Every download counts!

I appreciate any help <3

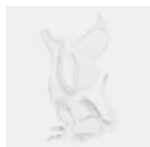

Changelog:

22.03.2025 - New Design with new link code, STEP and DXF have been added for easy modifying

04.04.2025 - **New Designs** with new link code now you can print QR Code with only one filament swap!

The old design contains ads from this day, I didnt noticed I was not creating direct QR code to RickRoll, the web I have used to create this code had trial option, after some time ads are going to appear when scan, because of web I used to generate this code
Now the QR Code moves you directly to RickRoll on YouTube :D
