A cute balloon dog mini to add to your collection. I designed this in Fusion 360 as a test and it printed very well. If you're a mini-collector like me, I think you'll love it!

Prints beautifully in Matte colors but prints well in silk, too! Just adjust for your filament.

(A light post-processing with a heatgun will take away any filament issues you may have. No supports or brim needed. I've included 2 print profiles for this one: one is a faster print, one is a higher quality print. The main difference is layer height)
