Everyone's favorite low poly skull beads! Properly test-printed and optimized for the best results. Hole size is 3, 5, 7, and 9mm.

Print settings:

- Filament: PLA

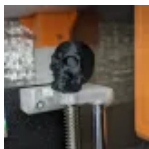

- Nozzle: 0.25, 0.4mm
- Layer height: 0.10 - 0.20mm
- Support Type: Organic (Tree) auto
- Overhang threshold angle: 30°

Notes:

- [28/3/2025]
I found an earlier origin than the one listed as the remix source, so I changed the license to match the original and added the link.
- [30/3/2025]
As a bonus, I added a cord pull version, compatible with cords up to 2mm.
