I have a tripod with the Velbon QB-4W Quick Release Plate. So I remixed these two components together to have a cell phone mount for my Google Pixel 2. A bit overkill for what I needed, but a fun little project.

Supports are not required for this print, and it fits perfectly snug in the mount.

Print instructions Category: Camera Print Settings

Printer Brand: Prusa

Printer: i3 MK2S

Rafts: No

Supports: No

Resolution: 200um

Infill: 20%

Filament: Spool3D PLA
