Summary

This is a remix of Uncle Jessy's Caliper Tool. I added measurements to make it even easier to use.

Tags: [cosplay](#) [helmet](#) [3dprinting](#)

This is a remix of Uncle Jessy's Caliper Tool. I add the measurements directly onto the tool to make it even easier to use.

This caliper tool makes it very easy to measure to get the perfect size for helmets and other 3D printed armor.

Note: For the measurements to be accurate the files cannot be resized. They must be printed at 100%.

Fits on a 256mm x 256mm print bed or larger

This remix is based on

Cosplay Calipers

by Uncle Jessy

Model files

cosplay-caliper-bottom.stl

☐ Must print at 100%, do not resize

cosplay-caliper-top.stl

☐ Must print at 100%, do not resize

cosplay-caliper-plug.stl

☐ Must print at 100%, do not resize
