A simple and practical **clip for securing filament ends on spools**, designed to keep your filament tidy and prevent it from unwinding or tangling. Perfect for filament storage, transport, or switching between spools during 3D printing.

Features:

- **Universal fit** – compatible with most standard filament spools (1kg, 750g, 500g).
- **Easy to use** – just snap the clip into a spool hole and insert the filament end.
- **Secure hold** – firmly grips the filament without bending or damaging it.

Ideal for makers, hobbyists, and professionals who want to keep their 3D printing workspace organized and prolong the life of their filament.

I've uploaded Version 2 with thicker, reinforced walls to improve strength and durability. You can check it out here: <https://www.printables.com/model/1312700-filament-spool-clip-v2-thicker-walls>

Version 3 **increased size**. You can check it out here: <https://www.printables.com/model/1325163-filament-spool-clip-v3-increased-size>

Version 4 with **thicker tip**. You can check it out here: <https://www.printables.com/model/1326786-filament-spool-clip-v4-thicker-tip>

Version 5 with **wider mounting**. You can check it out here: <https://www.printables.com/model/1326801-filament-spool-clip-v5-wider-mounting>

Version 6 **for thin-walled spools**. You can check it out here: <https://www.printables.com/model/1385114-filament-spool-clip-v6-for-thin-walled-spools>

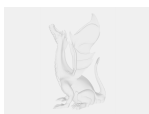

For Thin-Walled Spools
