Summary

if you have the tri-angle sharpening stone without the base, you can use my solution.

[knifesharpener](#) [spyderco](#) [sharpmaker](#)

if you have the tri-angle sharpening stone without the base, you can use my solution. Both angle of 30° and 40° a possible. with the cover you have a space saving storage possibility.

I recommend PETG but PLA works fin too.
NO SUPORTS required.
