I designed my own wall mount holder for this **Siemens HVAC QAA78.610/701** remote controller, because I got only 1 pcs in a box when I bought it and couldn't find anything like this online to buy. If you're not sure if it's for your controller, I made drawing with exact parameters.

Print it as in the render, with supports, material: PETG

Made in Fusion 360.
