In France when you buy a One Plus 5T on GearBest website, the Dash power adapter is fitted with a US plug. Gearbest adds a adapter for french plugs.

This adapter is very loose with the DASH Charger and always leaves in the wall plug when you change your place. This improvement fix the problem.

Edit : I add a remix for sabot component if you decide to print it in ABS. Only for this part the play with the plug is to small du to the retract of the material after printing.

Bill of material :

x4 screws M 2.5 x 8

x4 Nuts M 2.5

Parts to print :

x1 Sabot

x1 Etrier right

x1 Etrier Left

## Print Settings

### Printer Brand:

Prusa

### Printer:

i3 MK2S

### Rafts:

Doesn't Matter

### Supports:

Yes

### Resolution:

0.15

### Notes:

You can use PLA or ABS to print it.

For ABS, use the "Sabot ABS" component. Category: Mobile Phone
