updated 6. 2. 2022 | published 6. 2. 2022

### Summary

This remix is for when a more low profile lock arm is needed and tightens up the locking surfaces

[airtags](#)

Remix of the AirTag Lock by Cisco to scale down the locking arm for use in tighter spaces. Locking surfaces are slightly tightened of but a snugger fit. This gives a tight fit when printed with PLA

The other tags in the final photo are all available to download from my account

Credit to Xuis for the Air Tag model essential for creating these tags:
