## Summary

(please feel welcome to check out, all of my other designs under my profile :P...

[Gadgets](#) > [Computers](#)

Tags: [case](#) [playstation](#) [ps1](#) [raspberrypi](#) [raspberrypicase](#) [thingiverse](#) [raspberrypi3](#) [playstation1](#)

This is the Playstation Pi Tiny V5, it is an improved version of the V4, this version is edited so it will be easier to put together, and overall touch-up for a better look.

And the lid/top still comes of, to reveal the GPIO pins and other stuff, for your projects :P

This is a Raspberry Pi case, designed to work with the pi 2 and 3 , it is designed look like the Playstation 1.

The intention with this case is being used for emulating old games on ReTroPie, but for those who rather want one that looks like the playstation.

if there are any problems, please let me know.
