Space-saving sideways drill bit holder (parametric, adjustable). SKADIS hook based on a script from Thingiverse, will add source if I remember where it's from :-/

Update: I had uploaded an older, buggy version I've finally fixed the hook, should now fit on both SKADIS and UPPSEL. It's still a bit of a tight fit to get it in for the first time, but you can gently bend the upper hook and then it should work.
