Summary

My "Eisenhowers decision matrix" dice, if you do'nt find real urgency or real importance of a task.

Sometimes, with the Eisenhowers decision matrix you do not find real urgency or importance of a task. Then you are at the point, where to find a decision of luck. This is my dice to make a decision anyway. Just for fun. No Guarantees.

I printed it with 0,1 mm resolution and supports.

Do'not forget to block supports for Bottom text.
Otherwise it becomes a bit tricky to remove that supports.
