Summary

Modern style lamp shade to replace your old one.

[Household](#) > [Home Decor](#)

Tags: [vasemode](#) [lampshade](#) [curved](#)

Large lampshade that takes up most of the MK3S build volume. Can be printed regularly (3 layers thick with 0.4mm nozzle) or you can increase transparency in vase mode. Recommend using with LED bulbs only.

Print Instructions: Print top side down. If you have first layer adhesion problems use a raft or a brim.

Specifications: Mount opening is 1.6 inches inside diameter.

If you make this I would really like to see a picture, this is a remix of one of my other lamp shade designs that I haven't made myself! Thank you.
