Summary

Individual Letters to create your own sign or name/text plate using individual STL files.

[Art & Design](#) > [2D Plates & Logos](#)

Individual Letters to create your own sign/text plate using individual STL files that you can use in Blender, TinkerCAD or other 3D software that works with STL files. You can also print them as is after converting to gCode in a slicer.

Letters are approx. 25mm tall, 30 mm wide and 3.3 mm thick.

I have also included the Blender 2.91 file for those familiar with Blender.

If you would like to support my model development please consider a small donation to:

paypal.me/Wrestler1963

I hope you enjoy.

Regards,

Sandy
