Summary

Yousoro Anime Character in Red, White and Blue by (JohnnieWhiskey)

[Toys & Games](#) > [Action Figures & Statues](#)

This model is designed well for 3D printing.
The assembled model is approx. 275mm high, 21 parts total.
I printed the parts on my Prusa MK3S, 0.4mm nozzle and 0.1mm layer height.
I used esun Cool White PLA for the clothing.
I used esun Skin PLA for the body parts.
I used esun Brown PLA for the hair.
I used esun Gray PLA for the platform.
There are places to insert small metal pins or nails to hold alignment while gluing the parts together.

The biggest challenge was painting the small details on the face.

Model History:

Original model created by johnniewhiskey on Sketchfab then posted to Thingiverse where I found it.
