Summary

A small hook to attach a Covid mask to your ski helmet

[Sports & Outdoor](#) > [Winter Sports](#)

Tags: [ski](#) [facemask](#) [coronasolutions](#) [skihelmet](#)

Description:

A small hook to attach a Covid mask to your ski helmet. This way you do not have to remove your helmet to put on the face mask. The hook is attached to the chin strap of the helmet with the small eyelet at ear level. With a little practice, you can even keep your gloves on while you put the mask on.

Parameter:

- 0.2 mm layer height
- 15 % infill
- no supports needed
