Woman sitting in Lotus Pose meditating:

Making life like human sculptures was a snap with "Makehuman" software.  
Posing is achieved in Blender.  
I used mesh-mixer to auto-fix any issues.

## Print instructions Category: Sculptures Print Settings

**Printer Brand:** Prusa

**Printer:** Prusa Clone

**Rafts:** No

**Supports:** Yes

**Resolution:** .2

**Infill:** 10 percent

**Notes:**

Model should be printed with the back down. Meshmixer cut off the french braid. I went with its suggestions for the first print. The stl model uploaded here still has the braid.
