Tags: [focus](#) [arri](#) [wcu4](#) [robocup](#) [wcu](#)

Remixed in collaboration with original Ring Holder designer Cédric Heckly.

<https://www.thingiverse.com/thing:4832803>

Holds 3 pre-marked (or any) marking rings for WCU-4 (maybe Preston). With glue-on bracket, you can attach the holder on a Robocup with 2 zip ties.

No supports needed for the holder. Just the bracket needs bit of supporting.

For best results print in PETG from a presliced 3MF file(Prusaslicer).

Enjoy!
