I guess I am not the only one that came up with this idea. Already a lot of mask clips here and pretty cool ones as well. Of course, I like mine the most. No Supports or unattractive overhangs (I know, who cares for this little piece...).

The fit is tight, the clip quite stiff. Print some additional ones for your buddies. Don't lose them in nature, bring them back home or throw them in a bin after quitting skiing or snowboarding because of too many fail videos.

Have fun!
