updated 7. 2. 2022 | published 7. 2. 2022

Summary

Added a wedge to help get into corners. Needs a little longer strip of sandpaper.

I like the original a lot, I just need to sand into a corner, so I added a wedge. A better person would have adjusted the whole model to make it so the same length sandpaper strip would work in both...I am not that person. Please go download the "bolt" and the "clamp" from the original listing. I'm only uploading the new base.
