I found that the source models must have been made for bigger trains, because the trains included in my Ticket To Ride US #D07201 did not fit. The trays themselves fit the box, but the trains did not fit the tray.

So I removed the train brackets and made smaller ones to fit my set. If your box has 7201 on it, then this will work.

Each set requires 1 bottom tray and 3 train trays.

I've also included a single-train test-fit model.
