### Summary

a little landing port for a little drone

[Hobby & Makers](#) > [RC & Robotics](#)

Tags: [drone](#) [landing](#) [dji](#) [landingpad](#) [djimavic](#)  
[djimavicmini](#) [djilandinggear](#)

created a little landing pad for my DJI mavic mini drone.

Printed the "H" at first and after that immediately the body upside down without moving the printer's bed

have fun with it
