### Summary

Small printed locket that has space for a small picture of your loved one. Hope it is useful to you. No Supports needed.

I hope you enjoy this print. I made a small locket with a rotating joint based on the old bionicles connection (Shown in the picture below). This was made for the Prusa Valentines contest.

The printer needs to be well tuned. But just in case i added a step file and you should only have to make minor changes to the **Heart2** part to make the joint more snug or loose.

### **This Print does NOT Need Supports.**

I am not the biggest fan of **The Rock**, however I know a lot of people have been printing him so i decided to do you a solid and add a template of the **picture size 19.5mm X 13mm.**

Let me know if you have any questions at all.

For valentines consider the true example of Love **Philippians 2:1-11** :)

## **Model files**

**heart1.stl**

---

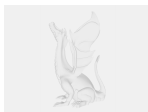

**heart2.stl**
