An easier to empty poop drawer for the Elegoo Centauri Carbon. Covers the factory poop door, and a nice drawer slides out the side.

Mounts with the existing poop chute screws, and one replaced chassis screw. Use an M3x10mm screw on the bottom ear.

Drawer prints without support.

Housing will require Tree supports.

Designed to clear the factory AMS port. Version with and without holes for an allen key for the factory poop chute screws. Can also just be slipped over those screws when loosened slightly.
