Simple tray to store my MK8 nozzles for my CR-10. They came in a bunch of plastic bags that was really frustrating. I have included the STEP file so anyone can change the numbers if they don't suit their nozzle sizes. It needed the higher infill to be able to support the bottom of the holes. I was tempted to print it upside down as it would easily bridge the holes but I decided on that too late.

### Print Settings

#### Printer Brand:

Creality

#### Printer:

CR-10S

#### Rafts:

No

**Supports:**

No

**Resolution:**

0.2

**Infill:**

20%
