## Summary

A neat solution to keep 4 watches freestanding or wall mounted

[Fashion](#) > [Other Fashion Accessories](#)

Tags: [watch](#)

I wanted a clean way to store my watches that wasn't just laying on a shelf or in a box. This comes with 4 different watch mounts and 2 types of stands. The solid base can only stand while the version with holes can either act as a desktop stand or a wall mount.

Both desk or wall variations will present the watch face at 45°
