Summary

An easy to print adapter for VESA mounted screen 75-100.

[Gadgets](#) > [Other Gadgets](#)

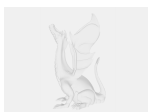

I uploaded the STEP file if anyone wants to modify it. I think it could get improvements like a nut insert or head screw dent or whatever to make it better.

I used the screws from a screen arm + additionnal screws and nuts to hold it into place. It works like a charm for me and hope it will work for you too!
