Joy Round Soft is a member of the Thingiverse Holiday Collection. At the bottom of this summary, you'll find a list of all the members of the collection.

Joy Round Soft has soft edges and is smaller than Joy Round. It prints great in one color. Two sizes are included. Choosing Holiday colors is always right. Something light and bright would be fun.

Dont forget to share the Joy. Visit the Joy Project below for the STLs you need to make small Joys to give to friends, family and strangers. Share good thoughts. Share the Joy!

Here are a few tips from a designer. With all the curves, Joy Round looks particularly good in Silky filaments set at .20mm layer height. The sheen really comes out with the curves.

To print in two colors, use the pause feature common with most current 3d Printers. Once the top layer of the bottom section is complete and the printer is focusing on just the Joy Outline, pause the printer and change filaments. If you have a multicolor printer just setup a filament change after 12mm.

The samples were printed in Silky Red, Silky Gold and Silky Green, Copper, Bronze PLA filaments.
