

## Wheel pin - Reaxion compatible

[VIEW IN BROWSER](#)

updated 16. 10. 2022 | published 16. 10. 2022

### Summary

A model to print if one of the wheel pins breaks (happens quickly) from the domino-like toy set Reaxion Xtra

[Toys & Games](#) > [Other Toys & Games](#)

Tags: [domino](#) [onshape](#) [wheel](#) [reaxion](#)

A model to print if one of the wheel pins breaks in the Reaxion set.

The wheel pins are part of the domino-like toy set Reaxion Xtra

Printed mine using a 0.6mm nozzle, 0.24mm layer height with PETG, laying on its side (for strength) on a small raft to minimize elephant's foot.

Fits well on the blocks and wheels.

An STL and STEP file is included,

It is modeled in Onshape. You can make a copy of the model and modify it if you like through below link:
