Print 4 of these and insert them on the sides of the console.  
This raises the console 3cm above the surface for improved air circulation and better cooling. (You can use some rubber tape for the bottom of the feet)

Remixed from <https://www.thingiverse.com/thing:2988644>, added ps4 logo for more authentic look and widened the foot a bit for better stability.

Printed with Prusament PETG, layer height 0.2, 15% infill
