Summary

Holder for one Prusa Steel Sheet (all models) that keeps the sheet upright.

Tags: [steelsheet](#) [steelsheetholder](#)

Simple steel sheet holder for one Prusa Steel Sheet. Should work with all Original Prusa MK2/MK3 and Prusa Mini steel sheets. The holder is designed so that when you press down the sheet, the holder will grip the sheet, making it easy to move the sheet around in case you, for example, need to relocate the sheet on your table. When you lift the sheet, the holder lets go of the sheet and will stay on the table.

Print instructions

I have only printed the holder in PETG, but other materials probably work as well.
