Will write description later, too tired, but wanted to get this all out there for everyone to use.

You can find the lid here: <https://www.printables.com/model/110082-nes-frontloader-lid>

And the controller here: <https://www.printables.com/model/117352-nes-controller-shell-replacement>

Update 3/12/2022

I had a report some pieces werent perfectly aligned with the originals, so I went back over everything and did an update to make sure all dimensions are accurate. Files for the top shell and cover have been updated.
