Update 6-January-2021 New version V3 with a 5 degrees upward angle so that the tools do not fall by vibration. Also included the Fusion 360 file.

Update 14-april-2019 Added tubes for more height for the Oil and Glue Stick so that they do not fall down.

I needed some place not to loose those, now they can go on the wall! I am happy with this simple design, fits well in my shop!
