Tags: **broomhandle**

This adapter allows tools (squeegees, brooms, etc.) designed for a tapered handle to be used with broom handles that have a standard screw thread (3/4"-5). It has an integral break-away support on the inside. Just print, remove the support, and then hot-melt glue in place. (You can re-heat the tool's tapered socket with a heat gun to remove.)

### Print Settings

#### Printer:

UDIO

#### Rafts:

Doesn't Matter

#### Supports:

No

**Resolution:**
