A spoolholder that would probably fit most of your needs.

I'll upload instructional videos here: <https://youtu.be/JyBSdGyvAY>

Print instructions

6 perimeter, 6 top and 6 bottom. 15% infill.

I have uploaded both 3mf of the bed and gcodes. The gcodes are from my prusa MK3s setup and should work good since I have adjusted down speed and acceleration.

No special gcodes at the beginning and end other then 100% flow all the time.
